REDIFON IN NEW ORLEANS

Redifon Computers is participating in the Data Entry Management Association's Third Annual Conference in New Orleans from September 25-28.

M. J. Aldrich, Director, Marketing of Redifon Computers is an invited guest speaker and will be reading a paper on "Distributed Data Entry", highlighting the evolution of keyboard-driven distributed data entry systems into Future Office Systems.

Redifon Computers is also exhibiting for the first time Videotex products connected by satellite with the UK GPO's Prestel service.

Redifon Computers is the only British company participating at the Conference.
